PROFESSIONAL EXPERIENCE

Web Developer | **MonsterCommerce - Belleville, IL**
September 2006 - Present

Envision, design, code and implement effective interfaces using CSS/HTML web technology that clients can easily manage and interact with using the Image Cafe online software platform.

Tasks include interface and template design, navigation design, information architecture, cross-browser compatibility and web page optimization.

Intern | **MonsterCommerce - Belleville, IL**
May - August 2006

Worked with a team of interns to develop a business plan and investors guide for a successful online business. We developed a unique social networking site called BuddyBrokers.com where individuals buy and sell their friends like stocks. I was personally responsible for technical planning and development, interface design, user studies, brand development, and usability enhancements.

Designer | **Signs Now, Inc. - Columbia, MO**
May 2002 - May 2006

Turned client visions into effective marketing communication and brand identity through various printed mediums. Produce and supervise hard-copy digital output by utilizing Mimaki JV-3 large format solvent inkjet/heat transfer printing and lamination equipment. Implementation and continued monitoring of pre-press color standards and equipment calibration.

EDUCATION

Bachelor of Science | **Computer Information Systems**
Minor - Business Administration
Columbia College - 2006
3.64 GPA *cum laude*

Completed coursework in user interface design & human-computer interaction methodology, artificial intelligence, database technologies & administration, systems analysis & design, software engineering, data warehousing, decision support systems, and C++ programming among others. Achieved deans-list recognition five times.

46 Credit Hours | **Computer Graphics Technology**
Purdue University - 2000-2002
3.0 Core GPA

Completed coursework in visual communications, graphic design, logo & brand identity, 3D modeling & rendering, and web design.

My objective is to provide both creative and strategic business solutions in all phases of product development and human-computer interaction methodology.

My ambition is to combine sound information architectures with cutting-edge interface designs at a company where I can utilize my eclectic range of communication, design, programming, and leadership skills to excel at all disciplines of graphic and interface design.
